Dear Sirs

**CITY & COUNTRY GROUP – King Edward V11 Hospital**

I am writing to confirm that the above customers have been known to the Bank for over 40 years and they have always operated their accounts impeccably.

They specialise in the restoration of historic and listed buildings, converting them into residential accommodation.

These customers are considered highly respectable and trustworthy and the relationship is highly valued by the Bank.

In terms of property development I find them conservative in their appraisals and meticulous in their quality and cost control. All sites have been well managed and all commitments have been met on time.

Yours sincerely,

  
Steve Palmer  
Relationship Director
