

DRAFT LOCAL CODE OF CORPORATE GOVERNANCE

Introduction

Corporate Governance has been defined¹ as being:

“how local government bodies ensure that they are doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner. It comprises the systems and processes, and cultures and values, by which local government bodies are directed and controlled and through which they account to, engage with and, where appropriate, lead their communities.”

A local code of governance explains how the organisation ensures compliance with statutory requirements and best practice guidance on corporate governance. The development of the local code of governance helps to ensure that proper governance arrangements are in place and serves as a means of increasing credibility, accountability and public confidence in the organisation.

The South Downs National Park Authority (SDNPA) has produced a local code of corporate governance which is based upon the guidance published jointly by CIPFA² and SOLACE³ entitled ‘Delivering Good Governance in Local Government Framework’ which applies to National Park Authorities. The Guidance sets out six core principles of corporate governance, together with various supporting principles in respect of each core principle. The SDNPA’s Local Code of Corporate Governance, set out below, incorporates these principles and identifies the source documents, good practice and other means of demonstrating the SDNPA’s compliance with the principles of good governance.

The SDNPA’s Values

The SDNPA has agreed the following statement as an expression of the values that will govern the behaviour of its staff and Members:

Working for the National Park....

We will:

- have a common goal determined by the National Park’s Purposes and Duty
- champion the National Park’s aspirations
- communicate clearly and listen well
- be flexible, encourage innovation and welcome challenge

....working together

We will:

- trust and respect people within and outside the SDNPA
- work in an open way
- work as one organisation which is mutually supportive
- be committed to working in partnership with others to develop shared priorities and gain mutual benefits

....to deliver results

We will:

- ensure our approach and decisions are informed by evidence
- be positive and enthusiastic: take the initiative
- be seen to add value in all that we do.
