

Planning Committee Meeting

11 April 2019

Agenda Item 10

Update on the progress of the Review of the Hampshire
Minerals and Waste Plan (2013)

Key issues

- Joint planning with the Hampshire Authorities for waste and minerals policy
- Review of Plans now required every 5 years
- Review due in late 2018
- Initial work suggests policy still flexible enough to meet requirements
- Full Review process scheduled to begin in Autumn 2019

Recommendations

The Committee is asked to recommend that the NPA agree:

- The decision that an update to the Hampshire Minerals & Waste Plan (2013) is not required at this time, but that a further Review will begin in 2020
- That a summary of the review process and the decisions be consolidated and published on the SDNPA website as the '2018 Review of the Hampshire Minerals & Waste Plan'.
- A programme of on-going engagement with interested parties commences following publication of the '2018 Review'
