

**Applications formally called in or follow up submissions made valid during the week  
Commencing 6<sup>th</sup> May 2019.**

**SDNP/19/01955/FUL**

Use of land for open storage (defined area) within retained earth bunds to comprise the final stage of site restoration

At

Valdoe Quarry, Kennel Hill Road, Goodwood, Chichester, West Sussex

**Validation Date:** 9 May 2019

**Date of Direction:** 26 April 2019

**Reason for the Direction**

The application is not considered a Minerals or Waste matter on the basis that the quarry is no longer operational and there is a scheme of restoration. It is nevertheless a former Minerals site where planning matters have previously been determined directly by the SDNPA.

In addition, the storage use proposed relates to the wider scheme of restoration which combined with these proposals results in landscape and ecological considerations which are sufficiently significant to justify calling in the application. Alongside this, the wider considerations for how storage relating to events across the Goodwood Estate is managed need to be assessed.
