

Validation checklist for: Application for a non-material amendment following a grant of planning permission

Please note that all matters on this validation checklist are considered important in the consideration of this application type. If you do not include an item listed but do not provide a separate statement or justification for its non-inclusion, your application may be made invalid. We will endeavour to notify you as soon as possible of any additional requirements that may be identified by our usual constraints checking processes.

Local Validation Requirements

Notes July 2019

Links to South Downs Local Plan policies will be updated in the weeks following adoption of the Plan. In the meantime, all policies in the Submission Local Plan may be found here <https://www.southdowns.gov.uk/planning/national-park-local-plan/> .

For the purposes of the Local List, the definition of Major Development is as set out in the Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended).

Additional Plans - The national requirements note the need for a location plan and “others as necessary” with the reliance on the local requirements to detail what those are. For the avoidance of doubt the local requirements are:

- Block plan including site access details, scale bar, key dimensions (distance of the development from the boundaries of the site and size of the building), original paper size and a north point.
- Existing and proposed elevations and floor plans in full (including outbuildings)
- Existing and proposed site sections and finished floor and site levels and datum point (1:50 or 1:100) (In all cases where proposals involve a change in ground levels or is on a sloping site).
- Roof plans (Required for all applications involving extensions to roof forms and new buildings).
