

Agenda Item 11
Report PR19/20-33

Report to	Policy & Resources Committee
Date	27 February 2020
By	External Auditor (Grant Thornton)
Title of Report (Note)	External Audit Plan 2019/20

Recommendation: The Committee is recommended to:

I. Note the External Audit Plan 2019/20

I. Audit Plan 2019/20

- I.1 The 2019/20 Audit Plan sets out how we intend to carry out our responsibilities as your external auditor. It covers the work we plan to perform in order to provide you with:
- our audit opinion on whether the Authority's financial statements give a true and fair view of the financial position as at 31 March 2020 and the income and expenditure account for the year then ended; and
 - a statutory conclusion on the Authority's arrangements to secure economy, efficiency and effectiveness.
- I.2 The report summarises our progress to date, our assessment of the key risks which drive the development of an effective audit for the Authority, and outlines our planned audit strategy in response to those risks.

A. Audit quality – national context

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms, GTIL, and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

1. Introduction & headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of South Downs National Park ('the Authority') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of [insert name of organisation]. We draw your attention to both of these documents on the [PSAA website](#).

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the :

- Authority's financial statements that have been prepared by management with the oversight of those charged with governance (the Policy and Resources committee); and
- Value for Money arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Policy and Resources Committee of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based.

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Fraudulent transactions included in the revenue cycle;
- Management override of controls;
- Valuation of land and buildings;
- Valuation of net pension fund liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Materiality

We have determined planning materiality to be £265k (PY £245k) for the Authority, which equates to 1.99% of your audited prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £13k (PY £12k).

Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money have not identified any VFM significant risks. We will keep this under review during the year.

Audit logistics

Our interim visit will take place in February 2020 and our final visit will take place in June and July. Our key deliverables are this Audit Plan and our Audit Findings Report. Our audit approach is detailed in Appendix A.

Our fee for the audit will be £13,575 (PY: £12,325) for the Authority, subject to the Authority meeting our requirements set out on page 12 and 13.

Independence

We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements..

2.72 Key matters impacting our audit

Factors

The wider economy and political uncertainty

Local Government funding continues to be stretched with increasing cost pressures and demand from users of services and public space. For South Downs National Park Authority, the Medium Term Financial Strategy (MTFS) sets out a balanced budget for each of the years 2022/23. This MTFS has been forecast based on a key assumption that the National Park Authorities' grant allocations continues at its current level, alongside estimates and assumptions about expenditure/staff pay/income levels. There is inherent uncertainty in some of these estimates and assumptions that mean the forward looking position could change quickly.

At a national level, the government continues its negotiation with the EU over Brexit, and future arrangements remain clouded in uncertainty. The Authority will need to ensure that it is prepared for all outcomes, including in terms of any impact on contracts, on service delivery and on its support for local people and businesses.

Financial reporting and audit – raising the bar

The Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge, and to undertake more robust testing as detailed in Appendix 1.

Our work in 2018/19 highlighted areas where local government financial reporting, in particular, property, plant and equipment and pensions, needs to be improved, with a corresponding increase in audit procedures. We have also identified an increase in the complexity of local government financial transactions which require greater audit scrutiny.

Our response

- We will consider your arrangements for managing and reporting your financial resources as part of our work in reaching our Value for Money conclusion.
- We will consider whether your financial position leads to material uncertainty about the going concern of the Authority and will review related disclosures in the financial statements.
- Where any actions have been agreed in respect of matters identified through our previous audit work, we will consider progress against these recommendations.

- As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting. Our proposed work and fee to meet the increasing expectations of audit quality, is set out further below, and is subject to PSAA agreement.

We will assess the adequacy of your disclosure about the financial impact of implementing IFRS 16 – Leases from 1 April 2020 and test a sample of lease obligations to determine whether they have been accounted for appropriately under the new requirements.

4. Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk Reason for risk identification

Key aspects of our proposed response to the risk

The revenue cycle includes fraudulent transactions

Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.

For this Authority, we have concluded that the greatest risk of material misstatement relates to fees, charges and other service income including s.106 and Community Infrastructure Levy (CIL) income, because the cut off accounting treatment of such revenues are subject to subjective judgement applied by management and potential human error in application of this judgement. We identified material adjustments to s.106 and CIL revenues (and associated receivables) in the 2018/19 period.

We have therefore identified the occurrence and cut off of CIL income as a significant risk, which was one of the most significant assessed risks of material misstatement.

We have rebutted this presumed risk for the other revenue streams of the Authority because:

- other income streams are primarily derived from grants from central government;
- there is little incentive to manipulate revenue recognition;
- opportunities to manipulate revenue recognition are very limited; and
- the culture and ethical frameworks of local authorities, including South Downs National Park Authority, mean that all forms of fraud are seen as unacceptable.

We will:

- evaluate the Authority's accounting policy for recognition of fees, charges and other service income for appropriateness;
- gain an understanding of the Authority's system for accounting for fees, charges and other service income and evaluate the design of the associated controls;
- Agree, on a sample basis amounts recognised as fees, charges and other service income in the financial statements to supporting documentation as evidence of the occurrence and cut off treatment.

Management over-ride of controls

Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. The Authority faces external scrutiny of its spending and this could potentially place management under undue pressure in terms of how they report performance.

We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.

We will:

- evaluate the design effectiveness of management controls over journals;
- analyse the journals listing and determine the criteria for selecting high risk unusual journals;
- test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration;
- gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and
- evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>Valuation of land and buildings (Annual revaluation)</p> <p>The Authority revalues its other land and buildings (ie. the South Downs Centre) on an annual basis to ensure that the carrying value is not materially different from the current value at the financial statements date. This valuation represents a significant estimate by management in the financial statements due to the size of the number involved (£1.8 million at 31 March 2019) and the sensitivity of this estimate to changes in key assumptions. Management engage the services of a professional valuer each year to estimate the current value of this asset.</p> <p>We therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement, and a key audit matter.</p>	<p>We will:</p> <ul style="list-style-type: none"> evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work; evaluate the competence, capabilities and objectivity of the valuation expert; write to the valuer to confirm the basis on which the valuations were carried out ; challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding; test the revaluations made during the year to ensure they have been input correctly into the Authority's asset register; evaluate the assumptions made by management for any assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value. 	
<p>Valuation of the pension fund net liability</p> <p>The Authority's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved (£2.8 million in the Authority's balance sheet at 31 March 2019) and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the Authority's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls; evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work; assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation; assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability; test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary; undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and obtain assurances from the auditor of West Sussex Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements. 	

5. Other risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
<p>International Financial Reporting Standard (IFRS) 16 Leases – (issued but not adopted)</p>	<p>The public sector will implement this standard from 1 April 2020. It will replace IAS 17 Leases, and the three interpretations that supported its application (IFRIC 4, Determining whether an Arrangement contains a Lease, SIC-15, Operating Leases – Incentives, and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease). Under the new standard the current distinction between operating and finance leases is removed for lessees and, subject to certain exceptions, lessees will recognise all leases on their balance sheet as a right of use asset and a liability to make the lease payments.</p> <p>In accordance with IAS 8 and paragraph 3.3.4.3 of the Code disclosures of the expected impact of IFRS 16 should be included in the Authority's 2019/20 financial statements. The Code adapts IFRS 16 and requires that the subsequent measurement of the right of use asset where the underlying asset is an item of property, plant and equipment is measured in accordance with section 4.1 of the Code.</p>	<p>We will:</p> <ul style="list-style-type: none"> Evaluate the processes the Authority has adopted to assess the impact of IFRS16 on its 2020/21 financial statements and whether the estimated impact on assets, liabilities and reserves has been disclosed in the 2019/20 financial statements; Assess the completeness of the disclosures made by the Authority in its 2019/20 financial statements with reference to The Code and CIPFA/LASAAC Local Authority Leasing Briefings.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report in July 2020.

6⁷⁶ Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and consistent with our knowledge of the Authority
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with the guidance issued by CIPFA
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions
- We consider our other duties under the Local Audit and Accountability Act 2014 (the Act) and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2019/20 financial statements, consider and decide upon any objections received in relation to the 2019/20 financial statements
 - Issue of a report in the public interest or written recommendations to the Authority under section 24 of the Act, copied to the Secretary of State
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act or
 - Issuing an advisory notice under Section 29 of the Act.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to "obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the Authority's ability to continue as a going concern" (ISA (UK) 570). We will review management's assessment of the going concern assumption and material uncertainties, and evaluate the disclosures in the financial statements.

7. Materiality

The concept of materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

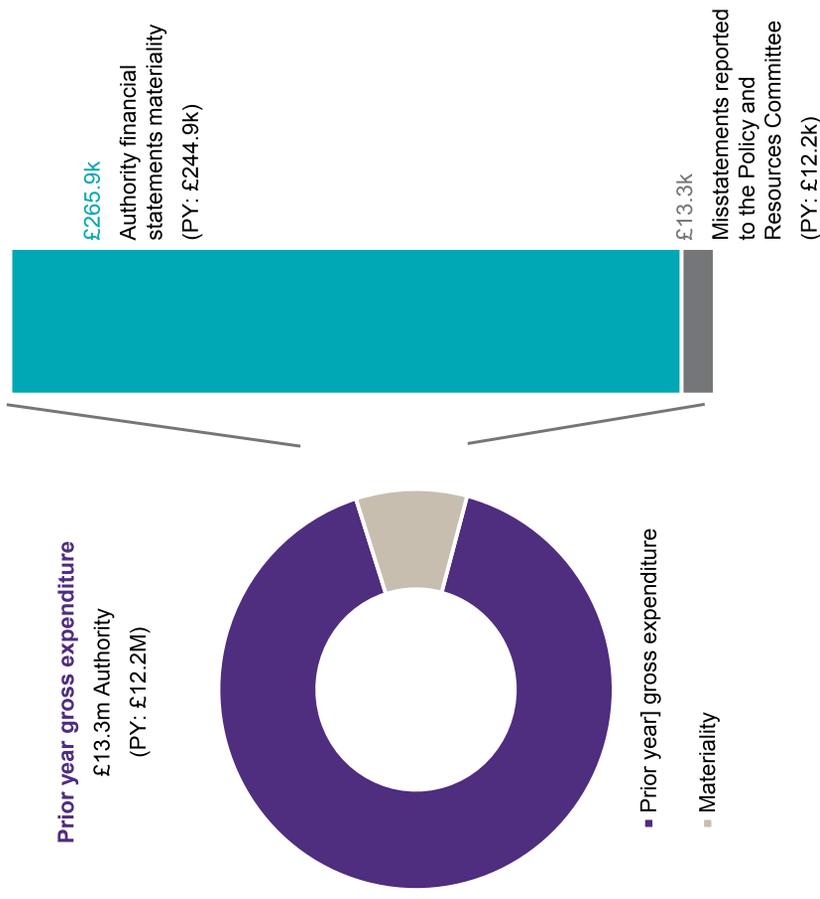

We have determined financial statement materiality based on a proportion of the gross expenditure of the Authority for the financial year. In the prior year we used the same benchmark. Materiality at the planning stage of our audit is £265.9k (PY £244.9k) for the Authority, which equates to 1.99% of your prior year gross expenditure for the year.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

Matters we will report to the Policy and Resources Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £xm (PY £xm).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Policy and Resources Committee to assist it in fulfilling its governance responsibilities.

8 Value for Money arrangements

78

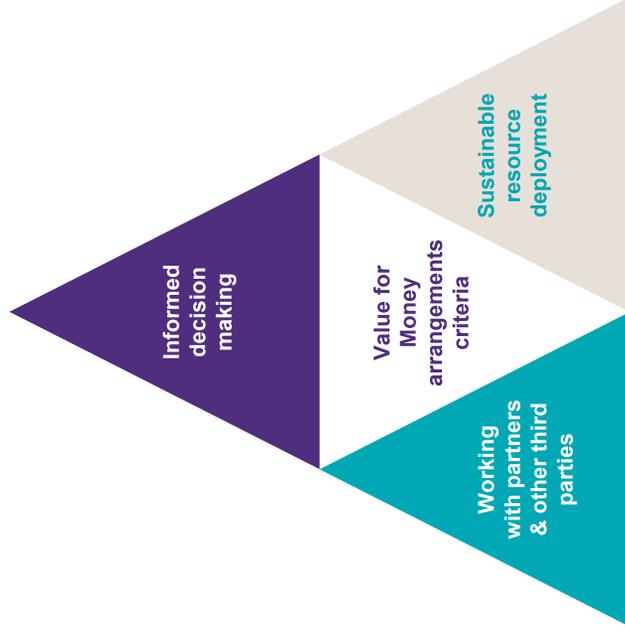

Background to our VFM approach

The NAO issued its guidance for auditors on Value for Money work in November 2017. The guidance states that for Local Government bodies, auditors are required to give a conclusion on whether the Authority has proper arrangements in place to secure value for money.

The guidance identifies one single criterion for auditors to evaluate:

“In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people.”

This is supported by three sub-criteria, as set out below:

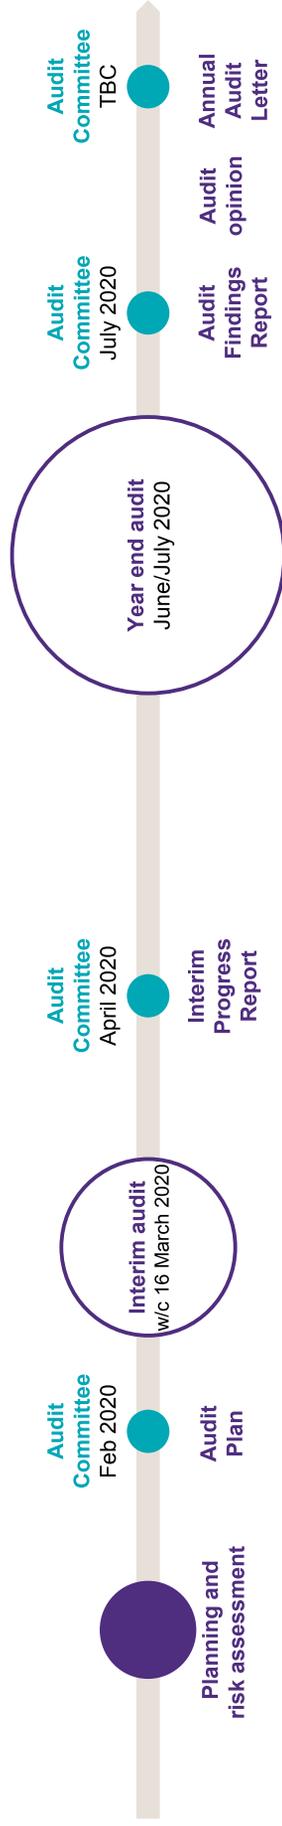

Significant VFM risks

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the Authority to deliver value for money.

We have not identified any significant risks from our initial risk assessment. We will continue our review of your arrangements, including reviewing your Annual Governance Statement, before we issue our auditor's report.

9. Audit logistics & team

Darren Wells, Key Audit Partner

Darren will be the main point of contact for the Chair and the Chief Executive and Board Members. Darren will share his knowledge and experience across the sector providing challenge, sharing good practice, providing pragmatic solutions and acting as a sounding board with Senior Board Members and the Policy and Resources Committee. Darren will ensure our audit is tailored specifically to you and is delivered efficiently. Darren will review all reports and the team's work focussing his time on the key risk areas to your audit.

Andy Conlan, Audit Manager

Andy will work with the senior members of the finance team ensuring early delivery of testing and agreement of accounting issues on a timely basis. Andy will attend Policy and Resources Committees, undertake reviews of the team's work and draft reports, ensuring they remain clear, concise and understandable to all. Andy will work with Internal Audit to secure efficiencies and avoid duplication.

Aman Haress, Audit Incharge

Aman will lead the onsite team and will be the day to day contact for the audit. Tom will monitor the deliverables, manage the query log with your finance team and highlight any significant issues and adjustments to senior management. Tom will undertake the more technical aspects of the audit, coach the junior members of the team and review the teams work.

Client responsibilities

Where clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. Where the elapsed time to complete an audit exceeds that agreed due to a client not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the narrative report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

10. Audit fees

Planned audit fees 2019/20

Across all sectors and firms, the FRC has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing. Within the public sector, where the FRC has recently assumed responsibility for the inspection of local government audit, the regulator requires that all audits achieve a 2A (few improvements needed) rating.

Our work across the sector in 2018/19 has highlighted areas where local government financial reporting, in particular, property, plant and equipment and pensions, needs to be improved. We have also identified an increase in the complexity of local government financial transactions. Combined with the FRC requirement that 100% of audits achieve a 2A rating this means that additional audit work is required. We have set out below the expected impact on our audit fee. The table overleaf provides more details about the areas where we will be undertaking further testing.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting. Our proposed work and fee for 2019/20 at the planning stage, as set out below and with further analysis overleaf, to be agreed by the Chief Finance Officer and is subject to PSAA agreement.

	Actual Fee 2017/18	Actual Fee 2018/19	Proposed fee 2019/20
Authority Audit	£14,058	£12,325	£13,575 *
Total audit fees (excluding VAT)	£14,058	£12,325	£13,575

* Analysis provided on page 13

Assumptions:

In setting the above fees, we have assumed that the Authority will:

- prepare a good quality set of accounts, supported by comprehensive and well presented working papers which are ready at the start of the audit;
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements;
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards:

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard](#), which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with staff of appropriate skills, time and abilities to deliver an audit to the required professional standard.

Audit fee variations – Further analysis

Planned audit fees

The table below shows the planned variations to the original scale fee for 2019/20 based on our best estimate at the audit planning stage. Further issues identified during the course of the audit may incur additional fees. In agreement with PSAA (where applicable) we will be seeking approval to secure these additional fees for the remainder of the contract via a formal rebasing of your scale fee to reflect the increased level of audit work required to enable us to discharge our responsibilities. Should any further issues arise during the course of the audit that necessitate further audit work additional fees will be incurred, subject to PSAA approval.

Audit area	£	Rationale for fee variation
Scale fee	10,825	
Raising the bar	1,000	The Financial Reporting Council (FRC) has highlighted that the quality of work by all audit firms needs to improve across local audit. This will require additional supervision and leadership, as well as additional challenge and scepticism in areas such as journals, estimates, financial resilience and information provided by the entity.
Pensions – valuation of net pension liabilities under International Auditing Standard (IAS) 19	500	We have increased the granularity, depth and scope of coverage, with increased levels of sampling, additional levels of challenge and explanation sought, and heightened levels of documentation and reporting.
PPE Valuation – work of experts	750	We have increased the volume and scope of our audit work to ensure an adequate level of audit scrutiny and challenge over the assumptions that underpin PPE valuations.
New standards/developments	500	We are required to respond within our audit to new accounting standards and we must ensure our audit work in new areas is robust and we advise you appropriately. This year we will both be responding to the introduction of IFRS16 relating to leases and leased assets.
Revised scale fee (to be approved by PSAA)	13,575	

11. Independence & non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in December 2017 and PSAA's Terms of Appointment which set out supplementary guidance on ethical requirements for auditors of local public bodies.

Other services provided by Grant Thornton

For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority. No other services were identified.

The firm is committed to improving our audit quality – please see our transparency report - <https://www.grantthornton.co.uk/globalassets/1.-member-firms/united-kingdom/pdf/annual-reports/interim-transparency-report-2019.pdf>

Appendix A: Audit Quality – national context

What has the FRC said about Audit Quality?

The Financial Reporting Council (FRC) publishes an annual Quality Inspection of our firm, alongside our competitors. The Annual Quality Review (AQR) monitors the quality of UK Public Interest Entity audits to promote continuous improvement in audit quality.

All of the major audit firms are subject to an annual review process in which the FRC inspects a small sample of audits performed from each of the firms to see if they fully conform to required standards.

The most recent report, published in July 2019, shows that the results of commercial audits taken across all the firms have worsened this year. The FRC has identified the need for auditors to:

- improve the extent and rigour of challenge of management in areas of judgement
- improve the consistency of audit teams' application of professional scepticism
- strengthen the effectiveness of the audit of revenue
- improve the audit of going concern
- improve the audit of the completeness and evaluation of prior year adjustments.

The FRC has also set all firms the target of achieving a grading of '2a' (limited improvements required) or better on all FTSE 350 audits. We have set ourselves the same target for public sector audits from 2019/20.

Other sector wide reviews

Alongside the FRC, other key stakeholders including the Department for Business, energy and Industrial Strategy (BEIS) have expressed concern about the quality of audit work and the need for improvement. A number of key reviews into the profession have been undertaken or are in progress. These include the review by Sir John Kingman of the Financial Reporting Council (Dec 2018), the review by the Competition and Markets authority of competition within the audit market, the ongoing review by Sir Donald Brydon of external audit, and specifically for public services, the Review by Sir Tony Redmond of local authority financial reporting and external audit. As a firm, we are contributing to all these reviews and keen to be at the forefront of developments and improvements in public audit.

83

What are we doing to address FRC findings?

In response to the FRC's findings, the firm is responding vigorously and with purpose. As part of our Audit Investment Programme (AIP), we are establishing a new Quality Board, commissioning an independent review of our audit function, and strengthening our senior leadership at the highest levels of the firm, for example through the appointment of Fiona Baldwin as Head of Audit. We are confident these investments will make a real difference.

We have also undertaken a root cause analysis and put in place processes to address the issues raised by the FRC. We have already implemented new training material that will reinforce the need for our engagement teams to challenge management and demonstrate how they have applied professional scepticism as part of the audit. Further guidance on auditing areas such as revenue has also been disseminated to all audit teams and we will continue to evolve our training and review processes on an ongoing basis.

What will be different in this audit?

We will continue working collaboratively with you to deliver the audit to the agreed timetable whilst improving our audit quality. In achieving this you may see, for example, an increased expectation for management to develop properly articulated papers for any new accounting standard, or unusual or complex transactions. In addition, you should expect engagement teams to exercise even greater challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates, going concern, related parties and similar areas. As a result you may find the audit process even more challenging than previous audits. These changes will give the audit committee – which has overall responsibility for governance - and senior management greater confidence that we have delivered a high quality audit and that the financial statements are not materially misstated. Even greater challenge of management will also enable us to provide greater insights into the quality of your finance function and internal control environment and provide those charged with governance confidence that a material misstatement due to fraud will have been detected.

We will still plan for a smooth audit and ensure this is completed to the timetable agreed. However, there may be instances where we may require additional time for both the audit work to be completed to the standard required and to ensure management have appropriate time to consider any matters raised. This may require us to agree with you a delay in signing the announcement and financial statements. To minimise this risk, we will keep you informed of progress and risks to the timetable as the audit progresses.

We are absolutely committed to delivering audit of the highest quality and we should be happy to provide further detail about our improvement plans should you require it.
