

Partnership Management Plan Delivery – Nature Recovery

P&R Committee
15-July-21

What is Nature Recovery?

South Downs National Park 10 year Wildlife Delivery Plan

Create and maintain.....

5380 ha of new
native woodland

8260 ha of grassland and
heathland restoration

Nature recovery in
13 river catchments

At least 13840ha of
new wildlife habitat

WHAT?

HOW?

.....using these methods....

- Nature Based Solutions for flood, water quality and climate mitigation and adaptation,
- Catchment plan based targeting/vulnerability mapping,
- Whole estate / Farm plans,
- Farm networks and collectives working together across large areas
- Invasive species control programmes
- Local community action
- Targeted species programmes
- Land purchase

...with these
partners....

- Land owners, farmers and land managers
- Business and private sector
- Charitable trusts, community organisations
- Heathlands Reunited
- Changing chalk
- South East/East Protected Landscape Group
- South East Local Nature Partnership
- South Downs Forestry Partnership
- South Downs Farm Clusters
- Farming Network
- Lost woods of the Weald NHLE
- Watercress and Winterbournes NHLE
- Big Chalk NAAONB Pilot

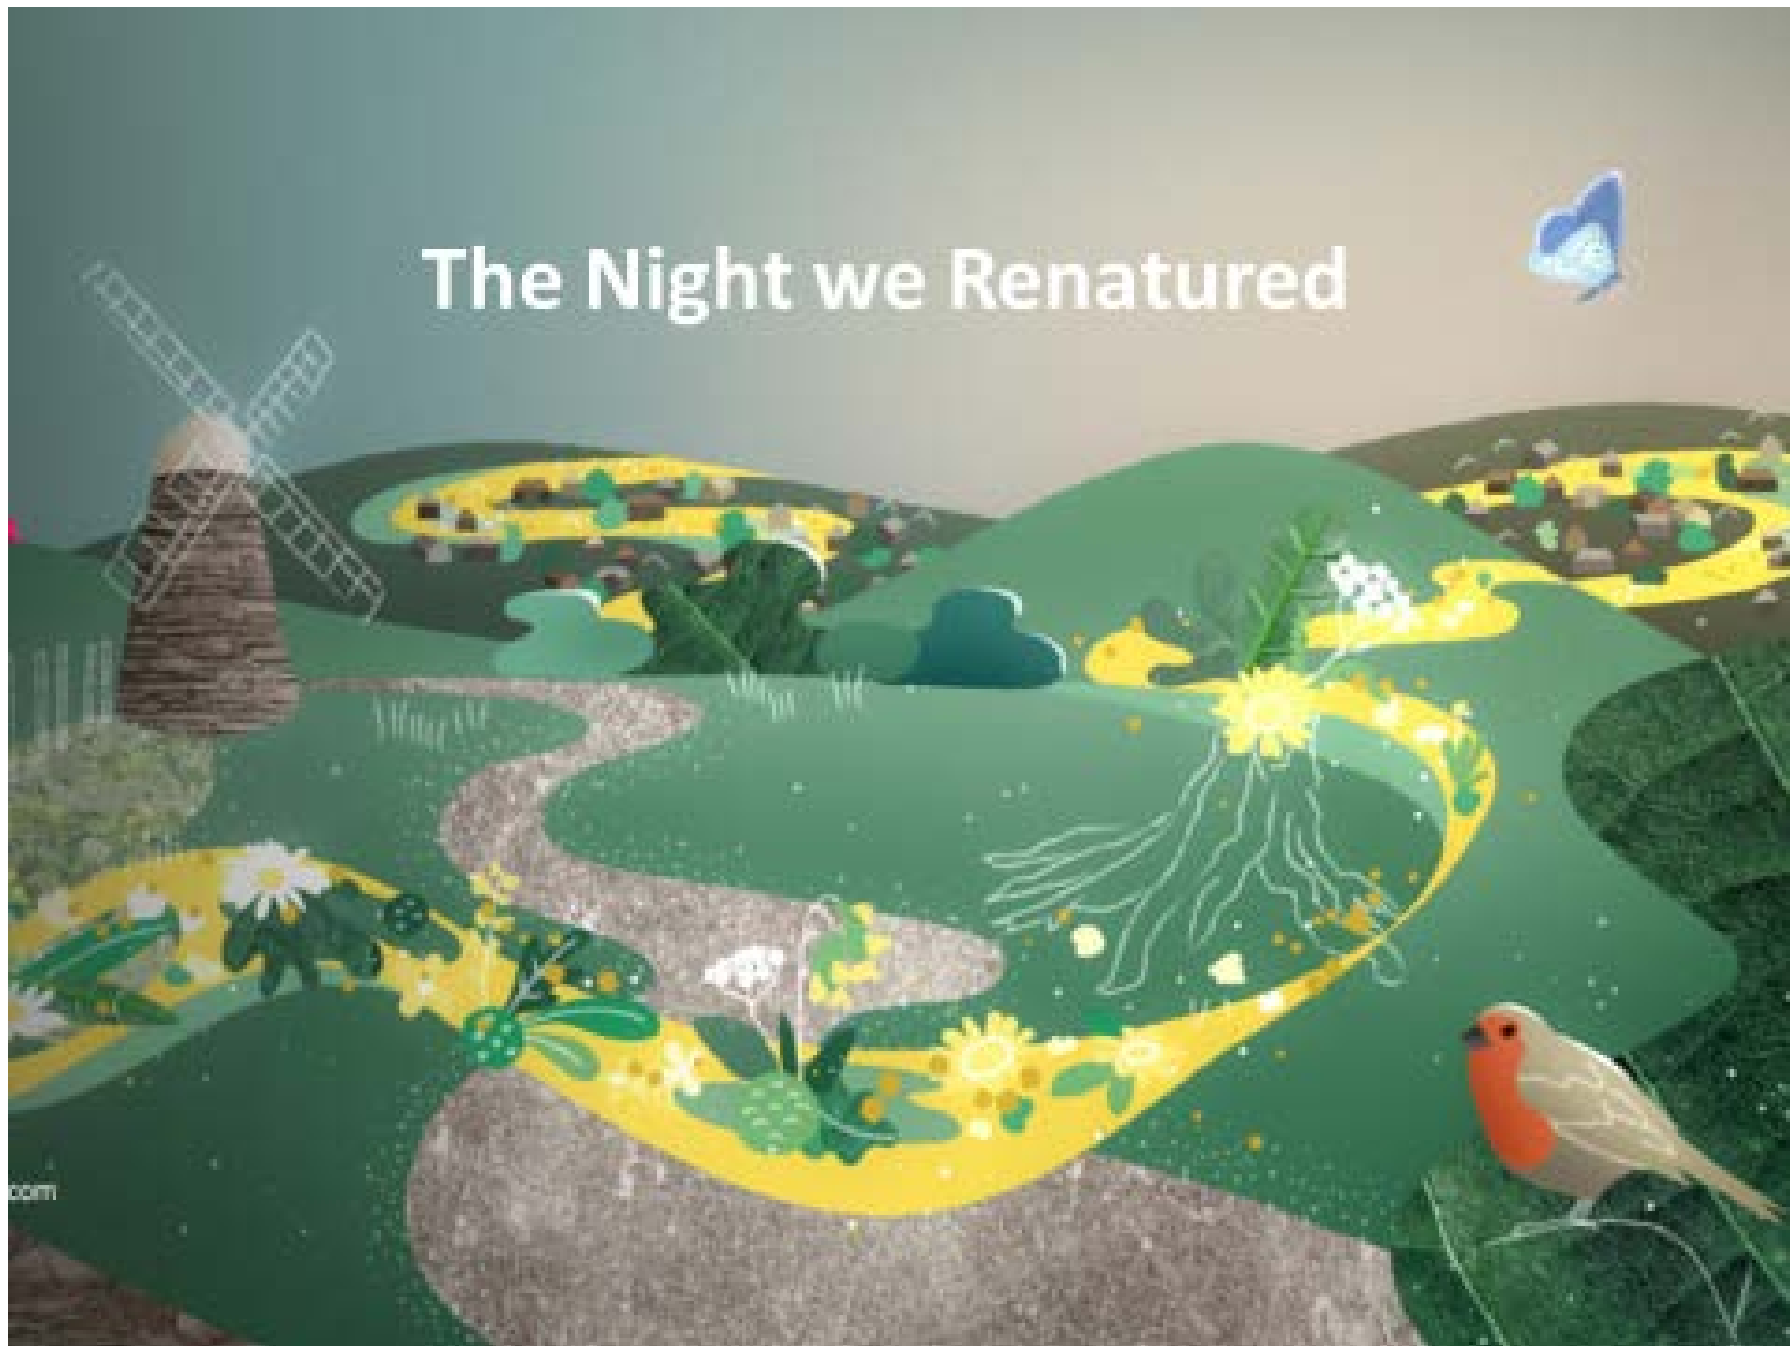

Who?

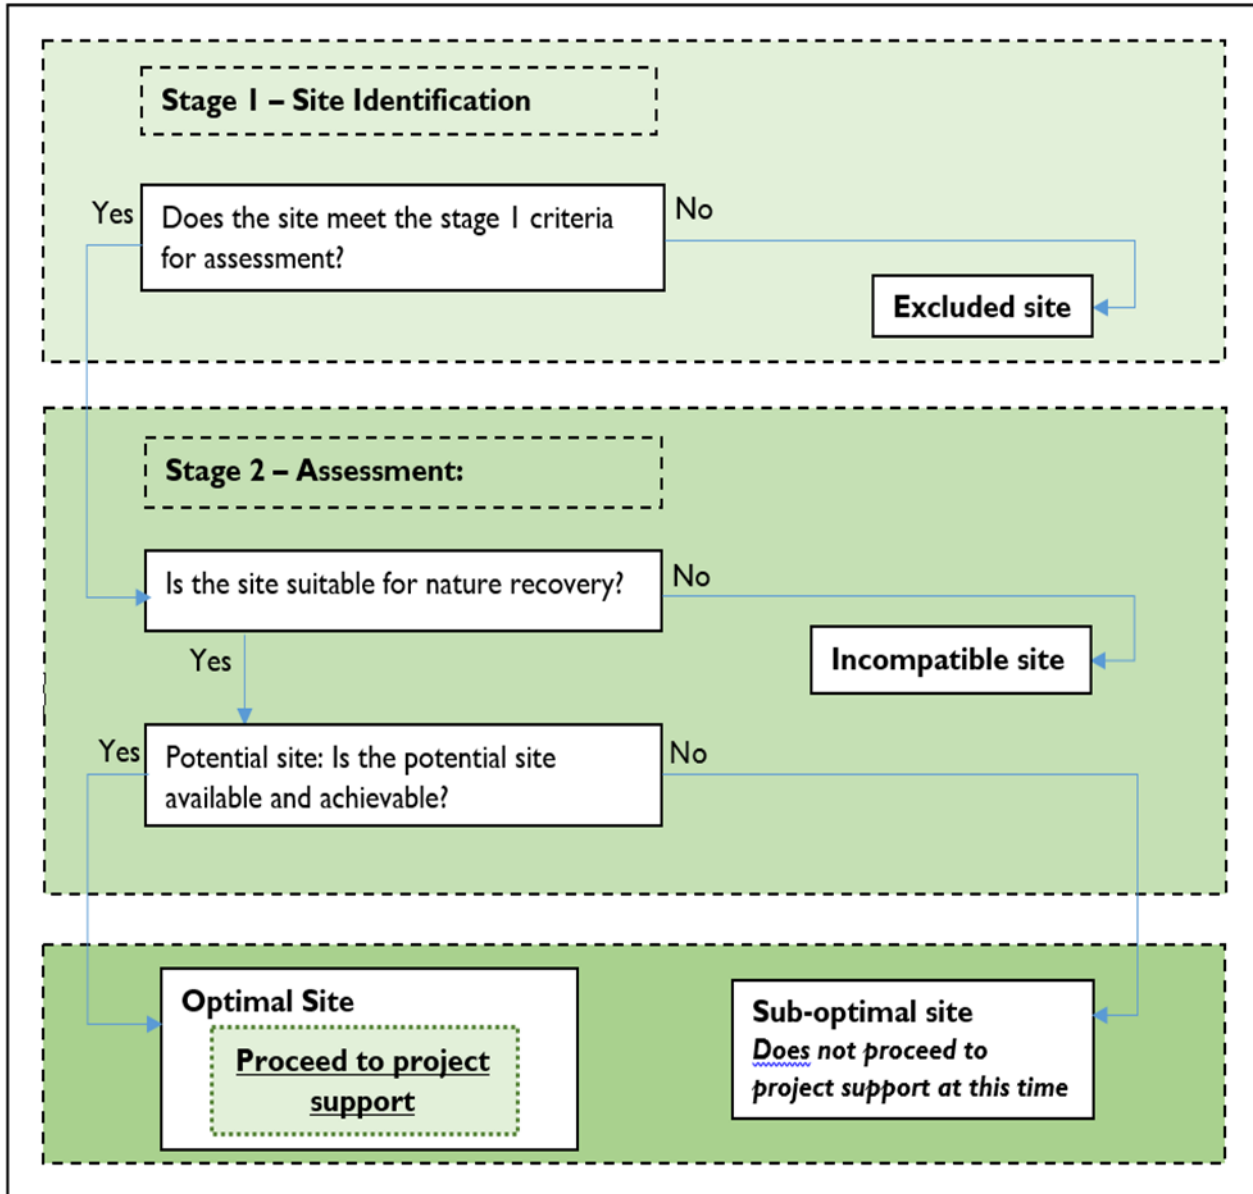

...combining a range of funding and resources.....

- Environmental Land Management,
- Net Zero finance,
- Green Challenge Fund,
- Biodiversity Net Gain,
- Water Environment Grant,
- Project Grant funding, eg National Lottery,
- Gifts in kind,
- Carbon offsetting and investment,
- Private finance,
- Nutrient Neutrality (Water)
- Land purchase

The Night we Renatured

Call for sites for nature sites process:

Biodiversity Net Gain:

“Biodiversity Net Gain is an approach to development which leaves biodiversity in a better state than before”
