

Report to	<b>Planning Committee</b>
Date	<b>14 October 2021</b>
By	<b>Director of Planning</b>
Title of Report	<b>Infrastructure Business Plan 2021</b>
Purpose of Report	<b>To approve the Infrastructure Business Plan and the spending of the 2020 / 21 Community Infrastructure Levy receipts</b>

**Recommendation:**

- 1) To approve the Infrastructure Business Plan 2021 (attached at Appendix 2 and 3);**
- 2) To approve the in-principle allocation of the Community Infrastructure Levy 2020 /21 receipts of:**
  - £1,374,746.85 to the projects identified in paragraph 4.5 of this report, and to delegate authority to the Director of Planning to undertake any further assessment of the projects prior to the final allocation of funds as detailed within paragraphs 4.7 and 4.8 of this report, to determine the final allocations of funds up to £1,374,746.85 in respect of those projects and to authorise payments accordingly, and**
- 3) To delegate authority to the Director of Planning to make minor amendments to the wording and formatting within the Infrastructure Business Plan 2021 prior to publication. Any such amendments shall not alter the meaning of the document.**

**1. Summary**

- 1.1 This report is seeking approval for the South Downs National Park Authority's (SDNPA) Infrastructure Business Plan 2021 (IBP, attached at Appendix 2 and 3) and the specific allocation of the Community Infrastructure Levy 2020 / 21 receipts. The IBP sets out the infrastructure projects required over the lifetime of the South Downs Local Plan and Neighbourhood Development Plans which may be funded partly or wholly by the Community Infrastructure Levy collected by the SDNPA.

**2. Background**

- 2.1 In 2016, the South Downs National Park Authority (SDNPA) authorised the introduction of the Community Infrastructure Levy (CIL) across the National Park. The SDNPA produced a CIL Charging Schedule and associated Infrastructure Delivery Plan (including a process for how CIL spending would be prioritised within the National Park) which was supported by the Planning Inspectorate following an examination. The SDNPA became a CIL Charging Authority on the 1 April 2017.
- 2.2 In the National Park, CIL is charged on residential developments (where new dwellings are created and / or where there is a net additional floorspace of over 100sqm) and on new large format retail floorspace (with a net retail selling floorspace of over 280sqm). CIL is then to be used to deliver infrastructure in the National Park, working in partnership.

- 2.3 The SDNPA is responsible for making the final decision on the allocation of funding raised through CIL. CIL has to be used for infrastructure to support growth across the National Park.
- 2.4 In the financial year 2020 / 21, the SDNPA collected a total of £1,836,384.19 from CIL.
- 2.5 Under the CIL Regulations 2010 (as amended), the SDNPA as the ‘charging authority’ retains 5% of the money received to cover its administration costs, then 15% or 25% (dependent upon whether there is a made Neighbourhood Plan) is passed directly onto Parish / Town Councils.
- 2.6 In accordance with the CIL Regulations, the remaining CIL money (that is minus the administration costs and Parish / Town Council portion) can then be spent on infrastructure projects. The list below sets out the types of infrastructure the SDNPA will spend its proportion of CIL on (see Table 1 below).

**Table 1 – The SDNPA’s Infrastructure Categories list** (submitted to the Planning Inspectorate when the CIL Charging Schedule was approved in 2016, and formerly known as the Regulation 123 list)

<b>Infrastructure Categories</b>	<b>Project Examples</b>
<b>Green Infrastructure</b>	Landscape-scale mitigation; Access land; informal open space; managed space; village greens; allotments; green roofs; parks; micro-generation energy schemes; South Downs Way improvements; flood management and climate change mitigation; Habitats Regulation Assessment compliance, and tree planting.
<b>Social &amp; Leisure</b>	Cultural heritage; enhancement to historic urban fabric; public realm improvements; added-value in hard surfacing; sports facilities and pavilion improvements; green gyms; playing fields; playgrounds; recreation grounds.
<b>Services &amp; Facilities</b>	Community buildings; libraries; support services and care; village halls; expanding emergency services capacity; car parking; insulation and other improvements to public buildings; National Park interpretation boards and exhibits; visitor centres; tourist information and promotion of National Park.
<b>Transport</b>	Public Rights of Way improvements; walking and cycling infrastructure; bus and rail network improvements; traffic calming; improved signage; highway works that add value to the National Park setting.
<b>Education</b>	State-funded primary and secondary schools.
<b>Health &amp; Wellbeing</b>	GP Surgeries / Hospitals / Mental health provision / adult social care
<b>Utility Services</b>	Broadband provision; utilities supply (where not a statutory undertaking); added value flood schemes; waste management & disposal.

- 2.7 The SDNPA started collecting CIL on 1 April 2017. CIL is payable upon commencement of development, not on the grant of planning permission.
- 2.8 The Infrastructure Business Plan (IBP) is the document that sets out the infrastructure needs to deliver the growth / development identified in the South Downs Local Plan and Neighbourhood Development Plans and prioritises the infrastructure projects which will be funded (partly or wholly) by CIL. The plan identifies a significant funding deficit (of millions of pounds) to delivering the required infrastructure.

- 2.9 CIL will only help to bridge the funding gap, but will never resolve it. Therefore, there is a need to prioritise the infrastructure projects, alongside exploring other funding opportunities and approaches to financing which will require partnership working arrangements with infrastructure providers.
- 2.10 In 2018 (and as amended in 2019), Planning Committee approved the process for creating the IBP, the details of which are set out in Appendix C of the IBP document (see Appendix 3 of this report), however the key points are summarised below:
- Splitting the SDNPA's portion of CIL receipts into 2 pots. Pot 1 – 40% split between the County Councils to deliver any Critical or Essential Projects the Counties have identified and Pot 2 – 60% for all other projects;
  - Categorising the infrastructure projects into 4 groups, Critical, Essential, High Policy Priority and Desirable – as shown in the Table 2 below;
  - Ensure a broad geographical spread of projects across the National Park;
  - Scoring the projects using the 'Prioritisation Matrix' (copy attached within the IBP Appendices – see Appendix 3), and
  - Projects would be put into 5 year periods, Short, Medium and Long term, based on when the project would most likely be required or delivered.

**Table 2 – Category Definitions**

Type	Definition
Critical	Infrastructure that must happen to enable growth, i.e. is a pre-requisite to unlock any future works, without which the development can't proceed. These generally fall within S106 agreements.
Essential	Necessary in order to mitigate impacts arising from the operation of developments e.g. off-site provision of school places, highway improvements.
High Policy Priority	<p>To support wider strategic or site specific objectives, which are set out in policy or subject to Statutory Duty.</p> <p>The SDNPA will prioritise projects within or with clear links to:</p> <ul style="list-style-type: none"> <li>• Our 5 large Settlements areas</li> <li>• Neighbourhood Plans with development allocations</li> <li>• Development allocations in the Local Plan</li> <li>• Partnership Management Plan Priorities – with clear evidence of partnership working</li> </ul>
Desirable	<p>Required but unlikely to prevent development in short-medium term.</p> <p>This will also include projects linked to Neighbourhood Plans with no development allocations and projects which fall within or are close to Large Settlements, or Neighbourhood Plans with allocations, but the projects have no defined timescales / clear commitments (i.e. more aspirational).</p>

- 2.11 In addition, and in accordance with the 2019 amendments to the CIL Regulations, the SDNPA is required to publish by 31 December each calendar year an 'annual infrastructure funding statement' (IFS), which must comprise:
- A statement of the infrastructure projects or types of infrastructure which the SDNPA intends will be, or may be, wholly or partly funded by CIL;

- A report about CIL, in relation to the previous financial year (referred to as the reported year) in a format specified by the Regulations, and
  - A report about planning obligations secured through Section 106 Legal Agreements, in relation to the reported year in a format specified by the Regulations.
- 2.12 The IBP for approval today (attached at Appendix 2 and 3), incorporates the requirements of the 'IFS', together with details of the proposed spending of the 2020 / 21 CIL receipts.

### 3. Infrastructure Business Plan (IBP)

- 3.1 The IBP (see Appendix 2 and 3) sets out
- the current understanding of infrastructure required to support the delivery of the South Downs National Park Development Plan (made up of the Local Plan, Neighbourhood Development Plans and Minerals / Waste Plans);
  - how the Community Infrastructure Levy (CIL) within the SDNPA will be used (including proposed spending this year), and,
  - how it is expected to be used over the coming years (set out in five year time periods).
- 3.2 The IBP can never be precise about the costs of some of the infrastructure projects required. The document is a best estimate at a given point in time. It is a 'living' document that is kept under review and updated annually (and approved at Planning Committee annually).
- 3.3 The IBP has been prepared by the SDNPA with input from the Parish and Town Councils, District and County Councils (including drawing on information in the Statements of Common Ground prepared to support the production of the South Downs Local Plan), Natural England, Historic England, Environment Agency and other interest and amenity groups within and adjacent to the National Park.
- 3.4 All interested parties were also asked to review the SDNPA's 2020 Infrastructure Business Plan and provide updates on relevant entries (interested parties were given 3 months to review and submit their bids). In total, over 400 projects were submitted for funding and reviewed.
- 3.5 All infrastructure projects identified have been separated into four categories, critical, essential, high policy priority and desirable (as agreed as part of the process previously approved by Planning Committee).
- 3.6 Categorising projects is always going to involve an element of judgement and the category that a project falls within may change over time.
- 3.7 For this year's IBP, no projects were identified as being critical, 8 projects were identified as essential, 146 projects as high policy priority and the remaining as desirable.
- 3.8 Approval of the IBP will constitute an 'in-principle' agreement to contribute SDNPA's CIL money towards the infrastructure projects set out in the document.

### 4. Spending of 2020 / 21 CIL receipts

- 4.1 From 1 April 2020 until 31 March 2021, the SDNPA collected £1,836,384.19 in CIL. £369,818.09 has been distributed to Parish / Town Councils where development has commenced (in accordance with the CIL Regulations). Payments to the Parish / Town Councils are made, as per CIL regulations, in April and October. The total amounts passed onto the qualifying Parish / Town Councils from 2020 / 21 CIL receipts, is set out in Table 3 below.

**Table 3 – 2020 / 21 CIL receipts passed onto the Parish / Town Councils**

Parish / Town (where CIL liable development has commenced)	Amount paid to Parish / Town Council
Alfriston Parish Council	£1,560.73
Binsted Parish Council	£8,286.59

<b>Parish / Town</b> (where CIL liable development has commenced)	<b>Amount paid to Parish / Town Council</b>
Compton Parish Council	£609.58
Corhampton and Meonstoke Parish Council	£3,283.07
Ditchling Parish Council	£5,652.44
East Dean and Friston Parish Council	£329.27
Elsted and Treyford Parish Council	£2,698.66
Falmer Parish Council	£1,876.83
Fernhurst Parish Council	£2,036.59
Findon Parish Council	£3,672.99
Fulking Parish Council	£900.00
Funtington Parish Council	£2,522.83
Graffham Parish Council	£13,549.26
Harting Parish Council	£3,240.00
Hassocks Parish Council	£439.90
Hawkley Parish Council	£780.37
Itchen Stoke and Ovington Parish Council	£1,718.41
Kingston Parish Council	£6,249.41
Lewes Town Council	£29,506.79
Liss Parish Council	£162,171.53
Midhurst Parish Council	£17,203.03
Northchapel Parish Council	£2,076.54
Owslebury and Morestead Parish Council	£1,994.01
Petersfield Town Council	£76,191.95
Piddinghoe Parish Council	£6,132.99
Pulborough Parish Council	£75.00
Singleton Parish Council	£279.30
Steep Parish Council	£433.90
Upham Parish Council	£9,267.26
Walberton Parish Council	£5,048.78
<b>Total</b>	<b>£369,818.09</b>

- 4.2 Once the Parish / Town Council payments have been made (and minus the 5% deducted for administration purposes in accordance with the Regulations) this leaves £1,374,746.85 of 2020 / 21 CIL receipts to spend on the infrastructure projects set out in the IBP.
- 4.3 As set out in paragraph 2.10, historically the SDNPA has split the remaining money into two pots (one for County Council led essential projects and the other for all other projects). However, this year it is recommended that the money is not split into separate pots and that all the money is allocated to the 29 projects listed in Table 5 below.
- 4.4 This is partly because up until 31 March 2021, none of the three County Councils which have been allocated money (via Pot 1) have spent the money awarded to them. Whilst it is recognised that the cost of these projects is substantial, the money allocated could be claimed and spent towards delivering those projects. This new approach also has the benefit of enabling all projects to be assessed together (including County Council projects) rather than reserving a portion for a particular body. Funding towards the County Council's Essential projects will need to be reassessed (including working with County Councils on the delivery programme for these projects and securing other sources of funding) each year. It also needs to be recognised that given the costs of these County projects the SDNPA CIL's receipts will never be able to fund the total costs within a single year.

**Table 4: Pot I allocation and spend to 31 March 2021**

County Council	Year CIL was allocated and amounts awarded			Total up to 31 March 2021
	2017/18	2018/19	2019/20	
Hampshire	£0.00	£0.00	£196,000.00	<b>£196,000.00*</b>
West Sussex	£70,275.00	£258,969.60	£283,726.44	<b>£612,971.04</b>
East Sussex	£23,425.00	£110,986.97	£121,597.04	<b>£256,009.01</b>
<b>Total</b>	<b>£93,700.00</b>	<b>£369,956.57</b>	<b>£601,323.48</b>	<b>£1,064,980.05</b>
*Post 31 March 2021, Hampshire County Council have spent £86,572.00				

- 4.5 Therefore, it is recommended that £1,374,746.85 is allocated to the following 29 projects listed as 'High Policy Priority' within the IBP as these projects scored the highest in the priority matrix, can be delivered in the short term and represent a broad geographical spread of projects across the National Park. The proposed allocations are set out in Table 5 below and the broad locations of these projects are shown on the Map attached as Appendix I:

**Table 5: Recommendations for 2020 / 21 CIL Receipts**

Project Number on Map (see Appendix I)	Project Name	Recommendation
1	Pavilion 2022, Fernhurst – to modernise and expand the sports pavilion to serve Fernhurst	£200,000.00
2	Wallands Primary School SuDs Project, Lewes – to provide an exemplar SuDs providing multiple benefits	£150,000.00
3	Egrets Way Phase 6 – to develop a shared-use path from Rise Farm to Rodmell (3.1km)	£131,250.00
4	Midhurst - Greenway Section A – to create a shared-use path and public rights of way improvements	£100,000.00
5	Sustainability Centre, Droxford (towards wider 'Ready, Steady, Grow' project) – to expand facilities and services about sustainable education, eco-tourism and residential courses	£100,000.00
6	Seven Sisters Country Park – to improve facilities and services	£80,000.00
7	Midhurst Common - access improvement works (multi-user routes)	£61,000.00
8	Hampshire County Council, Miles without Stiles - Phase 1 - Winchester (total of 91km stile free access) and Phase 2 - Southern Gateway (Hambledon - Rowlands Castle – total of 121km stile free access)	£53,008.00
9	West Liss Recreation Ground, Liss – to expand and renew recreational provision including play area, MUGA and fitness area.	£50,000.00
10	Queen Elizabeth Country Park - Bike Base - Cycle hubs, new trails for children and adults, bike repair facilities, battery charging, bike washing facilities etc	£50,000.00
11	Lavant - Play Area Equipment - replace / renew children's playground	£50,000.00

<b>Project Number on Map (see Appendix 1)</b>	<b>Project Name</b>	<b>Recommendation</b>
12	Beachy Head Chaplaincy – <i>improvements to existing facilities for Chaplains, Coastguards and Police</i>	£42,500.00
13	Petersfield School - <i>Drama Break Out Area / outdoor facilities</i>	£40,000.00
14	Amberley Community Car Park – <i>creation of new car park, School Road</i>	£35,000.00
15	Buzz Active - <i>improving access for paddle sport users (Cuckmere Valley)</i>	£30,000.00
16	Funtington Village Hall Refurbishment Project	£30,000.00
17	Leconfield Hall, Petworth - <i>Stage 1 Improvements</i>	£20,000.00
18	Droxford Junior School, <i>Landscape Strategy - new play and outdoor education facilities</i>	£37,563.85
19	Levin Down - <i>access improvement works / new walking routes</i>	£16,400.00
20	Bury School - toilet refurbishment	£15,000.00
21	Beacon Parishes Traffic Group - <i>Jubilee Pathway, Spatham Lane Extension (300m pathway on the west verge of Spatham Lane)</i>	£15,000.00
22	Selbourne - Village Highway Improvement Scheme	£15,000.00
23	Steep - Village Highway Improvement Scheme	£10,000.00
24	Froxfield and Privett - Village Highway Improvement Scheme	£10,000.00
25	Greatham - Village Highway Improvement Scheme	£10,000.00
26	Stedham with Iping Recreation Ground - <i>Phase 2a of 3 to replace / renew play equipment</i>	£2,775.00
27	Stedham with Iping Recreation Ground - <i>Phase 2b of 3 to replace / renew play equipment</i>	£9,750.00
28	Fittleworth - <i>Project LH01 Heathland Restoration at Hesworth Common</i>	£9,000.00
29	Fittleworth - <i>Project LH02 Tree Planting at Birchwalk Woods</i>	£1,500.00
<b>Total</b>		<b>£1,374,746.85</b>

- 4.6 It is further recommended that the money be ring-fenced for the next 3 years (to the financial year 2024 / 25). Should funding for these infrastructure projects no longer be required after 2024 / 25, the money would be made available to other projects.
- 4.7 As previously stated the approval of the IBP by the SDNPA's Planning Committee will constitute an 'in-principle' agreement to contribute CIL money towards those infrastructure projects. However, every project will be subject to further assessment (for example to ensure the project is being carried out by a competent person, checking the project costs / adequate quotations have been received, the project is going to be managed into the future, etc) by SDNPA officers before any actual payment is made. Officers will follow up with each bidder and help them with the process.
- 4.8 Projects seeking CIL monies will need to be supported by clear evidence of the cost and practicality of delivering the scheme or project, including acceptable project governance / management arrangements and feedback / monitoring. Therefore, the Committee is asked to delegate authority to the Director of Planning to undertake further assessment of the projects to determine the final allocation of funds up to the total amount (£1,374,746.85)

with that money to be spent on the 29 recommended projects and to authorise payments.

## 5. Planning Committee Considerations

- 5.1 The introduction of CIL, the 2016 Infrastructure Delivery Plan and the process for prioritising projects have previously been approved by the NPA. The process for creating the Infrastructure Business Plan was approved by Planning Committee on 13 September 2018 (and as amended on 14 November 2019) – links to the reports can be found in background papers listed below.
- 5.2 Members will also be aware of the Government’s intention to change CIL (as set out in the Planning White Paper) and we are waiting for the details. However, it is considered that the approach recommended in this report, is tried, tested and is considered to be robust at this time.

## 6. Other Implications

Implication	Yes/No
Will further decisions be required by another committee/full authority?	No, not in relation to the 2020 / 21 CIL receipts. The IBP will be brought back to Planning Committee each year for approval.
Does the proposal raise any Resource implications?	Yes, the proposed allocation of funds will be met from CIL receipts which are currently held in an earmarked reserve. Regulations allow charging authorities to retain 5% of receipts for administration purposes, which enables the Planning Service to deliver the work associated with operating CIL and producing the IBP.
Has due regard been taken of the South Downs National Park Authority’s equality duty as contained within the Equality Act 2010?	Yes, the bidding for CIL is made available to everyone and promoted through our website, newsletters, Parish and Town Councils and consultation lists. Application forms and promotional material is available in a range of languages and formats upon request. The projects that CIL will help to deliver have had due regard to this duty and will provide public benefits to all, such as health and well-being benefits and improved access to the National Park, in line with the Authorities enhanced Public sector equality duty.
Are there any Human Rights implications arising from the proposal?	No
Are there any Crime & Disorder implications arising from the proposal?	No
Are there any Health & Safety implications arising from the proposal?	No
Are there any Sustainability implications based on the 5 principles set out in the SDNPA Sustainability Strategy: 1. Living within environmental limits 2. Ensuring a strong healthy and just society 3. Achieving a sustainable economy 4. Promoting good governance 5. Using sound science responsibly	The prioritisation / scoring process of projects and the projects themselves that CIL will help to deliver, all take proper account of relevant sustainability matters. Indeed the projects are designed to meet the Purposes and Duty of the National Park.

## 7. Risks Associated with the Proposed Decision

- 7.1 Risks associated with CIL have been incorporated into the Corporate Risk Register, however some risks have been identified in the table below.
- 7.2 In addition, the methodology and recommendations set out above are intended to help the Authority manage risk through ensuring a robust and fit for purpose process and governance structure in which to allocate CIL funding.

Risk	Likelihood	Impact	Mitigation
Failure to approve allocating CIL funding – poor management of funds would lead to challenge over decision making	Unlikely	Moderate	Approve the IBP
Insufficient information to fully assess the requests for CIL funding (i.e. the projects put forward)	Likely	Minor	Officers assist bidders and follow up with queries as required.  Officers have been reviewing the CIL module for 'Projects for the South Downs' to ensure consistency of information provided and will be updating information available on the website.

# I. INTRODUCTION

---

This Infrastructure Business Plan (IBP) covers the South Downs National Park Authority (SDNPA) area.

Infrastructure is paid for in several different ways, for example via:

- **Utilities companies** – Electricity, gas, water, waste water, communications – through customer bills, government grant and support;
- **Government grants** – Direct or indirect through Local Authority grants or Local Enterprise Partnership grants;
- **Site specific requirements** – Through legal agreements with developer's of specific sites (known as Section 106 agreements);
- **Community Infrastructure Levy (CIL)** – a levy on certain types of new development;
- **Parish Council funds** – Through Parish precept or use of other monies / grants, and
- **Grant bodies** – Trusts / Charitable organisations provide funding often for local community led projects.

It is common for different funding sources to be combined to pay for new infrastructure.

The South Downs National Park Authority (SDNPA) has been collecting payments for infrastructure through the Community Infrastructure Levy (CIL) since April 2017.

This IBP sets out how the money collected to provide infrastructure through the CIL<sup>1</sup> and Section 106 agreements (S106) within the South Downs National Park has and will be used over the coming years. Chapter 2 explains what the SDNPA considers infrastructure and what it means in the context of a National Park. Chapters 3 and 4 contain the information on CIL and S106 funding secured, allocated and spent as well as non-financial contributions and forms the **Annual Infrastructure Funding Statement** which the SDNPA is required to produce.

It is clear that CIL will help to bridge the infrastructure funding gap, but won't completely resolve it. Therefore, there is a need to prioritise the projects, alongside exploring other funding opportunities and approaches to financing which will require partnership working arrangements with infrastructure providers. Parish / Town Councils will also have the ability to use their own CIL receipts (in accordance with the CIL Regulations<sup>2</sup>) on projects that are a priority for them.

This IBP can never be absolutely precise about the amount of money collected via CIL in the future or the precise costs of some of the infrastructure projects required. This document is a best estimate at a given point in time and is updated annually.

The IBP has been prepared by the SDNPA with input from the Parish and Town Councils, District and County Councils, Statutory and other interest and amenity groups within the SDNPA area.

---

<sup>1</sup> The collection and distribution of the Community Infrastructure Levy (CIL) is governed by the Community Infrastructure Levy Regulations 2010 (as amended). Further information on CIL can be found at <https://www.southdowns.gov.uk>.

<sup>2</sup> In accordance with Regulation 59A of the Community Infrastructure Levy Regulations 2010 (as amended).

## 2. INFRASTRUCTURE IN A NATIONAL PARK CONTEXT

All infrastructure projects identified for funding should support the National Park Authority’s statutory Purposes and Duty as specified in the Environment Act 1995:

- **Purpose 1:** Conserving and enhancing the natural beauty, wildlife and cultural heritage of the area
- **Purpose 2:** Promoting opportunities for the understanding and enjoyment of the special qualities of the National Park by the public
- **Duty:** To seek to foster the social and economic wellbeing of the local communities within the National Park in pursuit of the purposes.

The South Downs National Park Partnership Management Plan sets objectives based on the statutory Purposes and Duty, whilst the South Downs Local Plan allocates a sustainable level of growth to villages and towns across the National Park.

Infrastructure provision can have a positive impact and reduce or resolve limitations and inequality across wide areas. However, some infrastructure projects can be harmful to the natural environment and landscape and are, therefore, contrary to the first Purpose of the National Park. In these instances, the South Downs Local Plan policies seek to balance the public benefit of new infrastructure with the conservation and enhancement of the landscape. All projects should be underpinned by an Ecosystems Services approach and the SDNPA will prioritise those that demonstrate high quality design, multi-functionality and landscape integration.

Each infrastructure project is therefore categorised under one of seven headings, and Table I shows how these link to the Purposes and Duty.

**TABLE I – TYPES OF INFRASTRUCTURE**

Infrastructure Categories	Purpose 1	Purpose 2	Duty	Project Examples
<b>Green Infrastructure</b>	✓	✓	✓	Landscape-scale mitigation; Access land; informal open space; managed space; village greens; allotments; green roofs; parks; micro-generation energy schemes; South Downs Way improvements; flood management and climate change mitigation; Habitats Regulation Assessment compliance, and tree planting.
<b>Social &amp; Leisure</b>	✓	✓	✓	Cultural heritage; enhancement to historic urban fabric; public realm improvements; added-value in hard surfacing; sports facilities and pavilion improvements; green gyms; playing fields; playgrounds; recreation grounds.
<b>Services &amp; Facilities</b>		✓	✓	Community buildings; libraries; support services and care; village halls; expanding emergency services capacity; car parking; insulation and other improvements to public buildings; National Park interpretation boards and exhibits; visitor centres; tourist information and promotion of the National Park.

Infrastructure Categories	Purpose 1	Purpose 2	Duty	Project Examples
Transport		✓		Public Rights of Way improvements; walking and cycling infrastructure; bus and rail network improvements; traffic calming; improved signage; highway works that add value to the National Park setting.
Education			✓	State-funded primary and secondary schools.
Health & Wellbeing		✓	✓	GP Surgeries / Hospitals Mental Health provision / adult social care
Utility Services			✓	Broadband provision; utilities supply (where not a statutory undertaking); added value flood schemes; waste management & disposal.

## PLANNED LEVELS OF DEVELOPMENT IN THE SOUTH DOWNS NATIONAL PARK

The South Downs Local Plan was adopted in July 2019. Table 2 summarises the level and sources of housing development expected during the course of the Local Plan.

**TABLE 2 – PLANNED HOUSING DELIVERY IN THE SOUTH DOWNS NATIONAL PARK<sup>3</sup>**

Element of Housing Delivery to 2033	Dwellings
Allocations in the South Downs Local Plan, including those to come forward in Neighbourhood Development Plans and on strategic sites (as of 31 March 2020)	2,378
Net dwellings with extant permission (as of 31 March 2020)	1,487
Anticipated windfall development (as of 31 March 2020)	510
Completions for the period 2014 / 15 to 2019 / 20	1,653
<b>Total</b>	<b>6,028</b>

<sup>9</sup> Schedule 2, Paragraph 1(f)

<sup>10</sup> Schedule 2, Paragraph 1(g) (i) – (iii)

## CIL ALLOCATED AND UNSPENT IN 2020 / 21

*A summary of the CIL which has been collected, allocated to a project, but not yet spent:<sup>11</sup>*

As of the 31 March 2021, there was £1,822,140.35 of total CIL receipts allocated for projects but unspent. The 2020 / 21 CIL receipts (£1,836,384.19) were unallocated as of 31 March 2021, the allocation of these funds took place in October 2021 and further information can be found in Section 5 of this document.

Up until October 2021, the SDNPA made the decision to ‘split’ its CIL receipts into two pots. **Pot 1** would be spent on strategic infrastructure projects most likely to be delivered by the County Councils and other statutory bodies within the National Park, examples include education and large scale transport related projects. **Pot 2** would be spent on other types of infrastructure projects.

### POT 1

As of 31 March 2021, Pot 1 was allocated £1,064,980.05 to be spent by the following County Councils, based on the proportion of funds required to be spent on the projects listed as ‘Essential’ in Appendix B:

- West Sussex County Council was allocated £612,971.04.
- East Sussex County Council was allocated £256,009.01.
- Hampshire County Council was allocated £196,000.00.

Brighton & Hove City Council has not identified any critical or essential strategic infrastructure requirements within the National Park.

As of 31 March 2021, the £1,064,980.05 remains unspent. This money has been ring-fenced (for 5 years from the date of allocation) and the County Councils have been invited to request the funds for the purposes of delivering the identified projects. Should funding for these infrastructure projects no longer be required, the money could be made available to other projects.

### POT 2

As of 31 March 2021, Pot 2 was allocated £1,519,507.27 to be spent on the ‘High Policy Priority Projects’ set out in Table 3. Those projects allocated monies from the 2020 / 21 CIL receipts are set out in Section 5 of this document.

A total of £1,198,902.64 remains unspent on projects allocated money by the SDNPA. This money is ring-fenced for the 3 years (from the date the money was allocated). Should funding for these infrastructure projects no longer be required, the money could be made available to other projects.

## 5. ALLOCATION OF 2020 / 21 CIL RECEIPTS

---

As set out previously, CIL will help to bridge the funding gap in delivering infrastructure but it will never resolve it. Therefore, there is a need to prioritise the projects. For a realistic prioritisation exercise to take place, it is necessary to consider infrastructure needs across the South Downs National Park in its totality as well as infrastructure requirements generated by large scale development schemes on the boundary of the National Park.

Consequently, the SDNPA has drawn together all of the infrastructure requirements identified by the SDNPA, local communities (including Parish / Town Councils), Districts / Boroughs and County Councils and other stakeholders necessary to support the planned growth in the South Downs Local Plan and made Neighbourhood Development Plans during the lifetime of those plans. Interested parties were invited to review previous projects identified and to submit new ones.

In total there are over 400 projects. The list of projects which could receive CIL funding is provided in **Appendix B**. It should be noted that costs identified for a project are indicative as, in many cases, the full design and implementation costs have not yet been determined.

All the infrastructure projects listed within Appendix B have been separated into 4 categories, critical, essential, high policy priority and desirable.

Categorising projects is always going to involve an element of judgement and the category that a project falls within may change over time. It is also clear that the level of CIL receipts available to the SDNPA this year is not going to cover most of the projects submitted for consideration. Further details on how the SDNPA categorises and prioritises projects for funding (including governance arrangements) is set out in **Appendix C**.

For this IBP, **no projects** were identified as being **critical**, **8 projects** were identified as **essential**, **146 projects** as **high policy priority** and the remaining as **desirable**.

In 2020 / 21 the SDNPA collected £1,836,384.19. Excluding Parish Payments and administration costs (5%) this leaves **£1,374,746.85** to allocate to infrastructure projects.

The current approach of the SDNPA is to seek to spend the money on the delivery of infrastructure as soon as it is possible rather than retain it.

From October 2021, the SDNPA decided to no longer split its CIL receipts into two pots (as it has done for previous years). Projects put forward for funding (and existing projects to be reviewed) will be assessed in accordance with the process set out in **Appendix C** and money allocated accordingly.

The 2020 / 21 CIL receipts have been allocated to the projects set out in Table 8 below.

## 2020 / 21 CIL RECEIPTS - ALLOCATION

The SDNPA has allocated **£1,374,746.85**, to the following **29 High Policy Priority Projects** (all projects are listed in Appendix B).

**TABLE 8: 2020 / 21 CIL ALLOCATIONS**

Project	2020 / 21 CIL Allocation
Fernhurst - Pavilion 2022 Project	£200,000.00

Fittleworth - Project LH01 Heathland Restoration	£9,000.00
Fittleworth - Project LH02 Tree Planting	£1,500.00

The 2020 / 21 award is ring-fenced for 3 years to 2023 / 24. Should funding for these infrastructure projects no longer be required, the money could be made available to other projects.

## 6. BIDDING FOR CIL FUNDING - 2021 / 2022

If you have an infrastructure project that you are seeking funds for, this is how you can apply and the process that the SDNPA will follow.

### STAGE 1: ANNUAL CALL FOR PROJECTS

Once a year the SDNPA will have a 'call for projects', inviting local communities including Parish and Town Councils, County and District Councils, service providers and other stakeholders to put forward projects for CIL funding (this call for projects will also include a review of existing information / evidence).

Initial bids (referred to as 'Expression of Interest' or CIL EOI) can be made via the SDNPA's '**Projects for the South Downs**' (an online application process).

**The next call for projects opens on the 1 November 2021 and closes on the 28 February 2022.**

#### Some tips when applying for CIL

- Are you actually seeking funding for infrastructure? This covers a broad range of projects. However historical and feasibility studies are not deemed to be infrastructure and requests of money for these types of projects are unlikely to be successful.
- Ensure you are realistic about the likelihood and timing of the project. The SDNPA understand that priorities and issues can change however delays of a few years can place into question the deliverability of projects you may be promoting.

- If it is a large project, consider breaking it down into phases. Funding may be easier to secure in 'bite-sized' chunks and it helps the SDNPA to plan for the longer term.
- Projects in locations receiving, or expecting to receive, new housing development will be more successful than those that are not.
- Projects that deliver multiple benefits and are linked to the South Downs Partnership Management Plan will be more successful than those that do not.
- You must provide a figure of how much money you are looking for from the SDNPA. Those left blank or unknown are unlikely to be considered a high priority.
- Be clear about other sources of funding available or outstanding unspent S106 monies which could be used for your project.
- Where possible, your bid should include evidence of existing demands on infrastructure, the additional demands likely to arise from new development and the extent to which the existing infrastructure or services are capable of meeting those additional demands.

### STAGE 2: ASSESSMENT

Projects put forward for funding (and existing projects to be reviewed) will then be assessed in accordance with the process set out in **Appendix C**.

### **STAGE 3: PREPARING THE INFRASTRUCTURE BUSINESS PLAN (IBP)**

The IBP, including which projects will be allocated funding within that particular year, will be presented for formal approval at Planning Committee. Once approved, an 'in principle' agreement has been given to allocate those projects funding and successful applicants will be notified.

Projects not allocated CIL funding for that particular financial year will be carried over and reviewed for the following year(s) Infrastructure Business Plan. Applicants will be notified and asked to review and update their bids.

### **STAGE 4: RECEIVING THE FUNDS**

Successful applicants will be invited to submit a more **detailed application**. The purpose of this will be to confirm in more detail the use of the funds, the responsible organisation, timescales, payment details and other project management arrangements.

### **STAGE 5: REPORTING ON THE SPENDING**

The SDNPA is required to report on how CIL money is spent and will be working with applicants on reporting progress every year. The SDNPA has created a short reporting form, which we will ask successful applicants to complete at the appropriate time. This information will then be published in the future IBP.

## 7. MONITORING AND REVIEW

---

The Government requires that an Annual Infrastructure Funding Statement (IFS) is published by the 31 December each year starting from 2020. This IBP fulfils the requirements for an IFS. The IBP / IFS will be approved by the SDNPA's Planning Committee every year.

The CIL Regulations provide further information on how Parish / Town Councils should spend and monitor their allocations of CIL. For example, the CIL Regulations state that if Parish / Town Councils have not spent their CIL allocations made to them within five years of receipt the SDNPA can ask for the monies back. The exception to this is where a Parish / Town Council has identified 'up front' the need to fund an infrastructure project, where the CIL contributions accrued within the five-year period are insufficient to fund the project, but it can be demonstrated that there is a realistic prospect of the project being delivered during the timeframe of the South Downs Local Plan. Further information on the IBP process, review and governance is set out in **Appendix C**.

## APPENDIX C: PRIORITISATION OF INFRASTRUCTURE PROJECTS - PROCESS

The South Downs National Park Authority (SDNPA) is responsible for making the final decision on the allocation of funding raised through the Community Infrastructure Levy (CIL). This is achieved through an annual process of review, collection of bids and information and the preparation of a 5 year rolling programme of infrastructure projects – known as the Infrastructure Business Plan (IBP). This appendix sets out the decision making process including how the SDNPA identifies and agrees priorities for the use of CIL and allocation of the funds.

Under the CIL Regulations<sup>1</sup>, the SDNPA as the ‘charging authority’ is able to retain 5% of the money received to cover its administration costs, then 15% or 25% should be passed onto local Parish / Town Councils as the ‘neighbourhood portion’<sup>2</sup> (see **Table I**).

Where the Parish / Town Council’s priorities are the same as those of the SDNPA, for example if they are agreed a new school or highway improvements are needed, the Parish / Town Council can agree that the SDNPA can keep all or part of their 15% or 25% to ensure maximum funding is available for that particular infrastructure priority.

In accordance with the CIL Regulations, the remaining CIL money (minus the administration costs and neighbourhood portion) must then be spent on infrastructure projects related to the SDNPA’s infrastructure needs.

**TABLE I – HOW THE CIL NEIGHBOURHOOD PORTION IS CALCULATED**

<b>Parish / Town Council with a ‘made’ Neighbourhood Plan</b>	25% of CIL receipts received as a result of development within the Parish / Town will be passed onto the Parish / Town Council
<b>Parish / Town Council without a Neighbourhood Plan</b>	15% of CIL receipts received as a result of development within the Parish / Town will be passed onto the Parish / Town Council. This 15% is also capped at £100 per existing dwelling
<b>Non-parished areas</b>	SDNPA will retain 15% and work with the community on spending the monies in those areas
Funds will be passed to the Parish / Town Council every 6 months – at the end of April and October.	

<sup>1</sup> The Community Infrastructure Levy Regulations 2010 (as amended)

<sup>2</sup> In accordance with Regulation 59A of the Community Infrastructure Levy Regulations 2010 (as amended)

## THE PROCESS FOR THE CREATION OF THE INFRASTRUCTURE BUSINESS PLAN

In summary, each year the SDNPA will have a ‘call for projects’, inviting local communities, service providers and other stakeholders to put forward projects for CIL funding (this call for projects will also include a review of existing information / evidence). Projects put forward for funding will then be assessed in three initial stages.

**Step 1 – Basic Eligibility Test**, when considering a project, the following questions will be asked:

Is it infrastructure?

Does it relate to and support the South Downs Local Plan and Neighbourhood Plans?

If the answer is No to either of the above, then the project is not eligible for CIL funding. If the answer is Yes, then the project will move onto Step 2.

**Step 2 – Category of Project**, the SDNPA acknowledges that there will be a funding gap between the total cost of the infrastructure required and the money collected through CIL. Therefore, projects put forward for CIL funding will need to be prioritised (based on discussions with County Councils and other strategic infrastructure providers). Step 2 involves putting the projects into one of the following categories, as shown in **Table 2**.

**TABLE 2 – CATEGORIES FOR PRIORITISING INFRASTRUCTURE PROJECTS**

Type	Definition
<b>Critical</b>	Infrastructure that must happen to enable growth, i.e. is a pre-requisite to unlock any future works, without which the development can't proceed. These generally fall within S106 agreements
<b>Essential</b>	Necessary in order to mitigate impacts arising from the operation of the development i.e. off-site provision of school places, highway improvements.
<b>High Policy Priority</b>	To support wider strategic or site specific objectives, which are set out in policy or subject to Statutory Duty. The SDNPA will prioritise projects within or with clear links to: <ul style="list-style-type: none"> <li>• Our 5 large Settlements areas</li> <li>• Neighbourhood Plans with development allocations</li> <li>• Development allocations within the Local Plan</li> <li>• Partnership Management Plan Priorities – with clear evidence of partnership working</li> </ul>
<b>Desirable</b>	Required but unlikely to prevent development in short-medium term. This will also include projects linked to Neighbourhood Plans with no development allocations and Projects which fall within / close to Large Settlements / Neighbourhood Plans with allocations but the projects have no defined timescales / clear commitments (i.e. more aspirational).

Categorising projects is always going to involve an element of judgement and the category that a project falls within may change over time.

**Step 3 – Scoring of Projects**, projects will then be scored using the ‘Prioritisation Matrix’, see **Table 3**.

In addition, projects will be put into the following 5 year periods based upon when they would be most likely to be required or delivered:

- Short term (within 1 – 5 yrs);
- Medium term (6 -10 yrs), and
- Long term (11 – 15 yrs).

Where infrastructure providers, Parish / Town Council, local communities and others put projects forward for funding but do not provide a timescale, the SDNPA will identify them as ‘long term’.

The SDNPA will also identify those infrastructure projects where Parish / Town Councils could use their ‘neighbourhood portion’ to deliver the project. If they so wish to, Parish / Town Council can also request the SDNPA to retain all or part of their 15% or 25% to ensure maximum funding is available.

The SDNPA’s Major Projects Team (within the Planning Service) will carry out this initial work and create the draft IBP, including initial recommendations of which projects should receive CIL funding for that particular financial year based upon the categories, scoring matrix and funding available.

Once the draft IBP is created, extensive internal consultation will take place with the SDNPA’s Countryside and Policy Teams (CPM) and Senior Management Team (SMT), to see where they can ‘add value’ to projects, link projects together and confirm the prioritisation of projects, before it is recommended to the Planning Committee for approval.

The Infrastructure Business Plan (IBP), including which projects will receive funding (within that particular financial year) will be presented to Planning Committee for approval annually.

Once the IBP is approved, those projects that will be allocated funding that year will be subject to further detailed assessment.

Projects not allocated CIL funding for that particular financial year will be carried over and reviewed for the following year(s) Infrastructure Business Plan (as the IBP sets out a 5 year rolling programme of projects).

**Table 3 – Prioritisation Matrix**

Criterion	Tests	Assessment (1 to 10)	Weighting	Score
<b>Strategic value</b>	<p>The project supports Purposes and Duty, special qualities, Partnership Management Plan Outcomes and Policies.</p> <p><i>Weighting on landscape-led and ecosystems</i></p> <p><i>Need to understand if mild improvements for multiple purposes / special qualities outweighs strong improvement of one.</i></p> <p><i>If the project links to a variety and large number of outcomes and policies it should score highly.</i></p> <p><i>If the project completely delivers one policy or outcome it should score highly.</i></p>		10	0
<b>Partnership working</b>	<p>The project has been developed in collaboration with community-led plans, parish councils and other external partners.</p> <p><i>The number of partners is also an indicator that a project may score more highly but this should not be the determining factor.</i></p>		5	0
<b>Relationship to Local Plan</b>	<p>Scale of project, for example population served, area of coverage etc.</p> <p><i>Proximity to new development</i></p> <p><i>So growth-supporting infrastructure directly related to contributing site is highly rated</i></p> <p><i>Contribution to Ecosystems Services</i></p>		40	0
<b>Value added</b>	<p>Evidence of need for the project.</p> <p>Qualitative assessment:</p> <p><i>Has it followed best practice or exemplar projects for a higher-than-average outcome</i></p> <p><i>Has it followed guidance such as 'Roads in the South Downs' and landscape guidance</i></p> <p><i>Is there scope to link projects?</i></p>		10	0
<b>Deliverability and resources</b>	<p>Evidence that the project can be delivered with no major obstacles.</p> <p><i>Ownership by a suitable lead body.</i></p> <p><i>Availability of other funding sources, if appropriate.</i></p>		15	0

Criterion	Tests	Assessment (1 to 10)	Weighting	Score
<b>Urgency</b>	<p>Linked to site-specific infrastructure needs.</p> <p><i>Could urgency or site-specific dependency override other considerations if it is critical to the delivery of a development?</i></p> <p><i>Can this relate to things such as imminent threat of loss of habitat?</i></p>		10	0
<b>Legacy</b>	<p>On-going management and financial stability of the project is sustainable.</p> <p><i>Maintenance / operation / management costs are taken into account and long-term financial independence / profitability</i></p>		5	0
<b>Risk</b>	<p>Risk – spreading</p> <p><i>Availability of match-funding</i></p> <p><i>(higher the score, less risk attributed to project)</i></p>		5	0
